**Michael David-Fox : Crossing Borders: Modernity, Ideology, and Culture in Russia and the Soviet Union (Pitt Russian East European)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Crossing Borders: Modernity, Ideology, and Culture in Russia and the Soviet Union (Pitt Russian East

European):

Crossing Borders deconstructs contemporary theories of Soviet history from the revolution through the Stalin period, and offers new interpretations based on a transnational perspective. To Michael David-Fox, Soviet history was shaped by interactions across its borders. By reexamining conceptions of modernity, ideology, and cultural transformation, he challenges the polarizing camps of Soviet exceptionalism and shared modernity and instead strives for a theoretical and empirical middle ground as the basis for a creative and richly textured analysis. Discussions of Soviet modernity have tended to see the Soviet state either as an archaic holdover from the Russian past, or as merely another form of conventional modernity. David-Fox instead considers the Soviet Union in its own light—as a seismic shift from tsarist society that attracted influential visitors from the pacifist Left to the fascist Right. By reassembling Russian legacies, as he shows, the Soviet system evolved into a complex “intelligentsia-statist” form that introduced an array of novel agendas and practices, many embodied in the unique structures of the party-state. Crossing Borders demonstrates the need for a new interpretation of the Russian-Soviet historical trajectory—one that strikes a balance between the particular and the universal.

"This book would be suitable for any reader interested in Stalinist history. Its lucid discussion of the historiography and important concepts of Stalinism also make it particularly valuable for advanced undergraduate or graduate students." —Soviet and Post-Soviet
