Gettysburg. By Roger T. Roop. Excellent resource for understanding the actions at both Cemetery and Culp's Hill, actions which spanned the entire 3 days of battle. 1 of 2 people found the following review helpful. Little known action allow Union to prevail. By Ken Strafer. John Cox takes the reader along the seldom ventured Northern Approach to Gettysburg, before all the trinket shops had time to set up! He does a good job of terrain analysis and discussion of the troops that were in place at the time of the Battle in July 1863. Very good study of the Union position and well outlines for the reader. Great beach read! Ken. 11 of 13 people found the following review helpful. The Forgotten Flank. By A Customer. Mr. Cox has written an excellent book on the fight for Culp's Hill at Gettysburg on July 2nd. The book is very lively and well-written. His bio's on the different commanders is very interesting and insightful. Although the book is not footnoted, one can surmise where Mr. Cox got his information. I found it a very easy read, with excellent detail. It is a must read for anyone interested in the battle of Gettysburg.

South of the town of Gettysburg, Union troops take possession of the wooded heights at the tip of their "fishhook" defensive line. Defending Culp's Hill meant protecting the flank; it was the key to victory. Using official reports, letters, diaries, and memoirs, this book describes the struggle for the high ground and tells how and why the generals made their crucial decisions.

"Cox tells this dramatic story with great skill...Excellent narrative and analysis...Concisely written and informative." -- The Civil War News March 2004. About the Author: John D. Cox is a lifelong student of Gettysburg and a Licensed Battlefield Guide at Gettysburg National Park. A veteran of the U.S. Air Force, he now spends his days speaking at Civil War roundtables and giving tours at Gettysburg.
