One of the very best books available on the Korean WARBy Coffee LuvaThis is an excellent book that is the standard work. It is well reseached using incident and command reports and interviews shortly after the action. Replete with photos and detailed maps. Exhaustive and thorough and authoritative. Any library or collection regarding the Korean War would be not be complete without this book.0 of 0 people found the following review helpful. Well written history of crucial events in the pivotal year ...By diane spiegelbergWell written history of crucial events in the pivotal year of America's forgotten war. I purchased because it covers the role of my father's Army unit in the Marine withdrawal from Chosin.

NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT---OVERSTOCK SALE -- Significantly reduced list price while supplies last Ebb and Flow records an important chapter in the Korean War, the period from late November 1950 to early July 1951 when battle lines did indeed ebb and flow in pronounced surges. Billy C. Mossman

begins with the last weeks of the pell-mell rush of United Nations forces to the Chinese border and goes on to chronicle in great detail the test of American military leadership and resources posed by the taxing retreat of the Eighth Army and X Corps across the frozen wastes of North Korea. He highlights the limitations imposed by terrain and weather on the fighting capabilities of an American army facing surprise attack from a large disciplined enemy. In addition, the operations he describes in such careful detail vivify the principles of war for those with an interest in studying the profession of arms. High school students and above researching the Korean War may be interested in this book. Additionally, military leaders, strategists, historians, and political scientists may be interested in this volume about the Korean War.
