Schwalm This unit history by Lewis Crater, the 50th PA Adjutant, provided me the details I needed to fill in gaps of what actually happened to some of the volunteer soldiers throughout the course of Civil War. I was able to use this book as a cross reference to secondary sources. This book is the premier primary source of information on the

50th other than digging into the National Archives. I have used this book to visit nearly all of the battlefields and operational locations in the extensive well traveled men of the 50th PA. I highly recommend this book as a very good first person account of a critical time in our nation's history.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
