When, in 1882, after spending much time in collecting materials, I began to work actively and continuously upon the history of the Second Corps, of the five commanders of that illustrious body of troops four were still living, and ready to give me their valuable suggestions and advice. As I write these closing lines, of the five four are dead. Among the prominent staff-officers of the corps, especially competent to give information of value, the losses have been scarcely less remarkable. Toward the end, therefore, this work has been pushed forward under a painful sense of pressure and emergency. I have almost felt that my task would never be done at all, unless it were done at once. The death of General Warren occurred before this narrative had reached the period during which that brilliant young officer won renown at the head of the Second Corps.(Typographical errors above are due to OCR software and don't occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books' Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
