William N Pickerill : History of the Third Indiana Cavalry before purchasing it in order to gage whether or not it would be worth my time, and all praised History of the Third Indiana Cavalry:

Love that the book is very readable and full of original source material. The book binding is very tight which I didn't care for, as you spend most of the time fighting to keep the book open.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
