Harry Cooper : Hitler and the Secret Alliance (Hitler Escape) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hitler and the Secret Alliance (Hitler Escape):

You will NEVER get this kind of documented evidence from main stream textbooks. Mr. Cooper has done an excellent job with his research.8 of 11 people found the following review helpful. A home run from Cooper !By Ellis BaxterAn outstanding

bit of research which I have come to expect from Harry Cooper ... the style is not literature but hard cold research. Just the facts Jack ! I love this frank approach to study ... I can not recommend this book high enough .. first rate research from Cooper who not only digs into the paper work but damn if the guy does not go to the locations ... Buy one Cooper Book and you will buy more, yes, he is that good !

Many Puzzles Explained and More Questions Raised By George-Peter Paxinos Michael IVINHEIM's/Harry COOPER of SHARKHUNTERS.com's book is a marvel of revelation about what most of us have never learned of world history of the 20th Century, and explains, between the lines, the inside nature of world political process in our present 21st Century, a process of morally-unjustifiable wars-for-profit seemingly instigated by giant trans-national corporations, the deaths and displacement of millions of people and their exodus into countries economically unprepared to receive them and ethnically surprised at their unwillingness to integrate themselves into their receiving societies, the fragmentation of a world into an incoherently shattered jigsaw-puzzle of competing factions facilitating armed conflicts worldwide, and only really enhancing wealth accrual by the few, for the few, of the few, as the majority of the world sinks into individual poverty and becomes ruled over by an ever-tightening police-state noose upon us all. Taking us back in history, as IVINHEIM does, just showing us some of the behind-the-scenes machinations of the major powers during 20th Century,, helps us better understand our world today. On Page 80, he suddenly throws us a spin-ball with the story of VIKING colonisation in South America ; of lost underground facilities still protected by unknown structural materials that defied even world-leading German mining, boring and blasting technologies of the mid-20th Century, and the question arises : what happened to the Vikings, did they return to their homeland, and if so, why ? -- or did they go off somewhere with the unknown higher-tech builders of these protective facilities, leaving their valuables behind in safe places ? -- and why is this still-hidden knowledge under such a veil of secrecy, even today ? With these questions, we perhaps begin to get an inkling of why certain world elites are competing in their rush to uncover artifacts and higher technologies of the past, secrets perhaps needed for their very survival -- but not necessarily for ours. This book, taken together with Harry COOPER's/DON ANGEL ALCAZAR DE VELASCO's book, "Hitler in Argentina", in which DON ANGEL quite off-the-cuff, mentions in passing some of the principal Third Reich post-War escapees to South America, begs the questions of, firstly, "Who Profits ?" and, secondly, whether or not wars, especially world-wars, are not perhaps tragic but orchestrated plays set up by world-elites for development of needed technologies that will benefit, in the first instance, only themselves ? If this sounds paranoid, never forget the dictum of the "Principia Discordia", : "EVERY BOOK IS A MIRROR, WHEN A MONKEY LOOKS IN, NO PHILOSOPHER LOOKS OUT." Gar Vieles, was wir offiziell nicht wissen sollten Michael IVINHEIM und Redakteur Harry COOPER von SHARKHUNTERS bieten uns ein Wunderbares Beispiel an von dem, was die Welteliten uns vorbehalten möchten. Das Buch kam mir vorerst wie eine etwas trockenere Aufzählung zahlreicher geheimer deutscher Aktivitäten vor und während beider letzterer Weltkriegen vor, änderte sich jedoch schlagartig für ein paar Seiten ab Seite 80 mit der fast nebenläufigen Erzählung deutscher Entdeckungen mitten im 2.WK zu PARAGUAY, mit Resten einer verschollenen WIKINGERKULTUR, deren unterirdischer Stätten Zugangsschutz sogar deutschen Technologien jener Zeit, inklusive Bohr- und Sprengtechniken mit höchstbrisanten Sprengstoffen, sich gefeit zeigte (!) ; fazit : mit welchen noch höheren Technologien als den in den 40-er Jahren deutsch-Führenden wurden diese Anlagen gebaut, und, da die Wikinger nach vollen 290 Jahren Anwesenheit vor Ort scheinbar verschwanden, aber vermutlich nicht ganz vollständig heimgekehrt waren, denn das hätte eine Art Flucht bedeutet, wohin und/oder wie und mit wem sind sie in u.U. engerem Bündnis, freiwillig oder unfreiwillig, dieser Welt entflohen ? IVINHEIM'S Buch, zusammengenommen mit dem SHARKHUNTERS Buch "HITLER IN ARGENTINA" von Harry COOPER, mit Kernbuch die Kriegsendenaufzeichnungen von DON ANGEL ALCAZAR DE VELASCO, einem spanischen Agenten der deutschen ABWEHR unter Admiral Wilhelm CANARIS, klärt uns auf, wie führende Nazis dem kollabierenden Reich entflohen seien. Erstaufliegend, aber, sind DON ANGEL'S fast beiläufig angeführten Schlussbemerkungen zur Herkunft führender Reichsüberlebender, die quasi mit der Reichskasse und dazu noch sozusagen dem Silberbesteck höchster Technologien nachweislich getürmt waren und uns gesamtheitlich zwischen den Zeilen eine höchst behunruhigende wie auch ohne Zweifel begründete Fragestellung aufwerfen, ob eventuell das gesamte 3.Reichsgeschehen schlussendlich nicht eine massive Verarschung eines gesamten (deutschen) Volkes darstellt, das von einer (höheren ?) oder sonstigen (?) Weltelite eingespannt wurde, die Drecksarbeiten zu den benötigten höheren Technologieentwicklungen zu vollziehen, die irgendeine Weltelite irgendwann vermutlich benötigen würde, einer dem Tode geweihten Planeten zu entfliehen, die ergatterten Technologien aber alleine zugunsten der genannten Anführer des dazu zu führenden Weltenkriegselendes zu entwickeln ? -- Technologien, die uns normal-sterblichen auf keinen Fall je zu nutzen kommen würden. Das Buch - eigentlich beide zusammenhängenden Bücher ! -- sind meineserachtens ganz extrem zu empfehlen -- und mit dem soeben genannten zweiten Buch zusammengenommen, geben fast endlos nachzudenken auf.

"Hitler and the Secret Alliance is a fantastic journey into the past and, to an extent, the present of the southern half of the Western Hemisphere. Almost everyone has been exposed to some aspects of World War I and II Germany and probably to a lesser extent, South America. However, only a few have delved deeply into the history of southern South

America. Readers having an interest in and/or working knowledge of this area of world history from current sources will be amazed how this book puts incidents in perspective and makes the gaps in this history suddenly apparent. For example, the presence of German nationals and representatives of the German government in South America has always been more or less obvious to the public. The extent of this presence in terms of land ownership, businesses and manufacturing enterprises and the influence on countries such as Argentina as illustrated in this book will amaze even the knowledgeable reader.
