Some of these people are able to sway the majority into action with disastrous results!

The first complete and annotated edition of the book Hitler dictated just before his rise to power.

From Publishers WeeklyIn 1958, while directing the microfilming and organization of a trove of archives that the U.S. forces had taken from the Nazis at the end of WWII, historian Weinberg (*A World at Arms*) discovered the manuscript of a second book that Hitler had written but never published. The manuscript was published in German in 1961, accompanied by Weinberg's annotations, but this is the first authoritative English version (a pirated and poor translation appeared in the 1960s). The text bears all of Hitler's hallmarks: rambling thoughts, half-baked ideas, pedantic writing-along with a terrifying, sustained belief in war and violence as the means to ensure that Germans would flourish. Compared to *Mein Kampf*, there are fewer pages devoted to Jews. Nonetheless, what comes across most strongly is Hitler's abiding commitment to the principle of race and his identification of Jews as the enemy that threatened to undo all that Germans had created. Hitler dwells at length on foreign policy, and outlines a strategy of alliance with Fascist Italy and Great Britain. (He actually believed that Britain would accept a German-dominated European continent so long as Germany did not challenge the overseas British empire.) He also foresees an inevitable clash with the United States. This provides solid historical background on Hitler's thinking in the late 1920s, when his party was nothing more than a tiny, radical sect. Weinberg provides helpful notes and a very informative introduction. Copyright 2003 Reed Business Information, Inc.About the AuthorDr. Gerhard L. Weinberg was born in Germany and came to the U.S. in 1940. After serving in the U.S. Army, he received his Ph.D. in history from the University of Chicago. He was one of the scholars to work on German documents captured in 1945.
