the following review helpful. Five StarsBy Dianna PetterleExcellent information about the tragedy of human trafficking and the economic, psychological impact on victims.

The practice of one human being exploiting another in slavery-like conditions is not new. Today, it is called human trafficking. Social, political, and economic forces over the past 60 years have changed how and why this human rights abuse occurs. In order to solve this or any social problem, it is important that it is fully understood. With a range of contributing subject experts from different disciplines and professions, this text comprehensively explains human trafficking as it exists and is being addressed in the twenty-first century. Human Trafficking is essential reading for professionals working in many fields, including law enforcement, human services, and health care, and for concerned citizens interested in human rights and how to make a difference in their communities. This book is also intended for use in undergraduate and graduate interdisciplinary courses in human trafficking. A bank of test items applicable to each article in the book is available to instructors interested in selecting this edition for course use. Simply send an e.mail to the publisher at saleshss@taylorandfrancis.com

About the AuthorMary C. Burke is an associate professor in the Department of Psychology and Counseling at Carlow University where she is the program director of the doctoral program in Counseling Psychology. She has been involved in anti-human trafficking efforts since 2004 and is the founder of the Project to End Human Trafficking (www.endhumantrafficking.org).
