Jerome R. Corsi PhD : Hunting Hitler: New Scientific Evidence That Hitler Escaped Nazi Germany before purchasing it in order to gage whether or not it would be worth my time, and all praised Hunting Hitler: New Scientific Evidence That Hitler Escaped Nazi Germany:

2 of 3 people found the following review helpful. Three StarsBy Legal EagleNot much original research or details. The book is only 133 pages8 of 12 people found the following review helpful. Read my REVIEW and JUDGE for

YOURSELFBy CMP3Enjoyed the television adaptation of this book so much, I wanted to find out more. Well, watch the television adaptation and save your money. This book is more the size of a paperback - a thin paperback.I thought the dimensions on AMAZON looked wrong and upon receiving the book I was correct. Expecting a book of a full size - NOT! Like I said the size of a paperback book with a hard cover. Next, the 176 pages listed were achieved by using an extremely HUGE font to fill up the pages and get the 176 pages. Could easily be 100 pages if a normal font was used.Nothing new as far as information related to the television series. The book as an companion piece - maybe so. But, if you have not seen the television series - for me that is where money needs to be spent, not on this book.Very seldom do I give reviews of this type, but this is pretty much a rip off. And..... needs to get their product descriptions correct.5 of 8 people found the following review helpful. Hitler's Actual Escape From GermanyBy Lewis S Robinson, IIII enjoyed Corsi's book very much and it did contain some new and good information about Hitler, but it did not offer an eyewitness account of how he actually escaped Nazi Germany and why he wasn't in the bunker on April 29 or April 30, 1945. My father-in-law was a POW in Germany and was an eyewitness to Hitler's actual whereabouts at that time. His book has been published, registered with the US Copyright Office, and will be available on in the very near future.

In 2009, three US professors with access to Adolf Hitler's alleged remains startled the world with scientific DNA proof that the skull and bones that Russia had claimed since the end of World War II were Hitler's actually belonged to a middle-aged woman whose identity remains unknown. This announcement has rekindled interest in the claim made by Joseph Stalin, maintained to the end of his life, that Hitler got away. The truth is that no one saw Hitler and Eva Braun die in the bunker in Berlin on April 30, 1945. No photographs were taken to document claims Hitler and Eva Braun committed suicide. Hitler's body was never recovered. No definitive physical evidence exists proving Hitler died in the bunker in Berlin. Dr. Jerome Corsi explores the historical possibility that Hitler escaped Nazi Germany at the end of World War II. FBI and CIA records maintained at the National Archives indicate that the US government took seriously reports at the end of World War II that Hitler had escaped to Argentina. More recent evidence suggests Hitler may have fled to Indonesia, where he married and worked at a hospital in Sumbawa. Even the chief of the US trial counsel at Nuremberg, Thomas J. Dodd, was quoted as saying, "No one for sure can say Adolf Hitler is dead." Putting massive amounts of evidence and research under a critical eye, Dr. Corsi shows that perhaps modern history's most tantalizing question has yet to be definitively answered: Did Hitler escape Nazi Germany at the end of World War II to plot revenge and to plan the rise of the Fourth Reich? Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

"Beliefs die hard. Especially if one has been inculcated in the public for more than 70 years. Everyone knows that Adolf Hitler committed suicide at the end of World War II. Yet a growing amount of material now documents how the German Fuehrer and his wife Eva not only escaped war-torn Europe but lived a retired life in South America. Any lingering doubters to this history must read Jerome Corsi's *Hunting Hitler*. From eyewitnesses to recently declassified FBI documents, Corsi tracks Hitler's escape from doomed Berlin to an idyllic mountain retreat in Argentina." Jim Marrs, journalist and five-time New York Times Best Selling author
About the Author
Dr. Jerome R. Corsi received his PhD from Harvard University in political science. He is currently a senior staff reporter for WND.com, where he works as an investigative journalist. In 2004, Dr. Corsi coauthored the #1 New York Times bestseller *Unfit for Command: Swift Boat Veterans Speak Out Against John Kerry*. Its success permitted him to write full-time on politics and economics, two fields in which he has considerable expertise and experience. Since then, Dr. Corsi has written five New York Times bestselling books, including *The Obama Nation: Leftist Politics and the Cult of Personality*.
