Robert W. Mercy : I Hear No Bugles before purchasing it in order to gage whether or not it would be worth my time, and all praised I Hear No Bugles:

0 of 0 people found the following review helpful. A precious giftBy ARNOLDI was given Mercy's book as a gift. He delivers the reader to the very precipice of human experience. The distance separating life from death, sanity from abject madness, fate and destiny from willful planning and the most insane cruelties from the richness of human kindness is measured in nanoseconds. One cannot put the book down. Mercy brings the reader to stand there with him in the most unforgiving of distant worlds. I have never yet come upon a work to compare with this.0 of 0 people found

the following review helpful. Wonderful first hand account of the Korean WarBy LRACPRobert Winston Mercy's book takes the reader on a very personal journey through the Korean War. You feel like you're right there with him. It's informative, and a must read for those interested in military history.0 of 0 people found the following review helpful. Great bookBy beloved777I met the author and was impressed by his stories on some of his experiences in movies and so forth. When I bought the book, I enjoyed seeing his picture in the book. Great book for history buffs. My 15 year old son read it and enjoyed it immensely. Definitely recommend!

Disillusioned by movies and naïve, the author is determined to enter into the military early and become a war hero.
