Good addition to your library for War of Northern Aggression buffsBy JosephGreat book, very informational, wasn't the one the pictured showed however. The one I received however was actually bigger in size and I actually liked it better, as the pages are bigger and pictures easier to see. I almost sent it back, but after thumbing through it, I decided to keep it, because of it's size.1 of 1 people found the following review helpful. InformativeBy JTI was looking for a book that showed the battle maps of various Civil War battles. It's a good resource. The battle descriptions are overviews, but that is ok for me. The artwork is good. All around enjoy it and I'm glad I bought it.0 of 0 people found the following review helpful. Good tool.By JJSServes its purpose well.

This volume covers the Civil War on the Eastern Front, the Western Theater, the Coastal War, and the Far West. The volume is filled with black and white photos, color illustrations and maps.
