I really enjoyed reading about the people who have looked after the first families for over two hundred years. It gave information about the White House being built. It is interesting and I shared with my family. The National Geographic Society lends itself well to this project with their exceptional photos and graphics. A topic as big as this building can't be handled in detail in just one volume, but for those who love the architecture and history of the building and its residents this is a good beginning.0 of 0 people found the
