**Hugh M. Cole : The Lorraine Campaign: U.S. Army in World War II: The European Theater of Operations (United States Army in World War II. the European Theater of)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Lorraine Campaign: U.S. Army in World War II: The European Theater of Operations (United States Army in World War II. the European Theater of):

0 of 0 people found the following review helpful. A good documentation of the campaign with superb mapsBy Bruce MickelsonA good documentation of the campaign with superb maps, but terribly boring to read. Only the US Army could make battle so dull.1 of 1 people found the following review helpful. Five StarsBy Alva Marion Jr.I Love the book the service.Alva0 of 0 people found the following review helpful. Five StarsBy John F HarrisonAmazing generation!

The Lorraine Campaign chronicles the U.S. Third Army, commanded by Lt. General George S. Patton Jr., and its struggle though the slow, arduous campaigning of the fall of 1944, from the Moselle to German border and the West Wall in the Saar region. After the reduction of Metz, the story ends on December 18, 1944, when the Third Army was

diverted to move against the German winter counteroffensive in the Ardennes. A parallel account from the enemy side puts the American operations in proper perspective. The volume contains also an analytical description of the decisions of commanders at army, corps, and division levels that provided the framework of the tactical operations. Historical perspective is enhanced by frequent reference to earlier campaigning over this same terrain in 1870, 1914-1918 and 1940.
