They Should Matter To Everyone By ChimonsoDr. Lebron performs a commendable public service in analyzing a tragic and disgraceful aspect of America's past and present: the ongoing assaults on African Americans which deny their civil and human rights. The book is most timely, but also

demonstrates that the problem is neither contemporary nor even recent. The cases discussed are disturbing indeed, but the responses from the authors and thinkers Lebron cites help to restore a measure of hope for the future. The lasting impression is that Black Lives Matter is an appropriate and overdue response to America's oldest, most vicious movement (though unknown by its real name): Black Lives Don't Matter. The main reservation concerns Lebron's focus on intellectuals and other opinion-makers. From 18C petitioners and the WPA narratives, through Nate Shaw / Ned Cobb** to the current documentary "Whose Streets?," ordinary African Americans speak with insight and eloquence about their and the country's condition. They are not "followers," they are leaders in their own communities. Hopefully the author will give them their due in a revised edition or future work. Otherwise, this is a compelling and utterly necessary study.** T Rosengarten, All God's

An excellent and timely work on the foundations of the Black ...By Greg TaylorAn excellent and timely work on the foundations of the Black Lives Matter movement grounded in the earlier thoughts of some of America's finest Black thinkers. There is an unfortunate, and I'm sure unintentional, editorial mistake on page 3 of the first chapter where Andrew Jackson is referred to as the U.S. president during reconstruction instead of Andrew Johnson. Hopefully it will be corrected in subsequent printings. 1 of 1 people found the following review helpful. Excellent pointsBy A. LoveExcellent and interesting points made about the struggle of black Americans throughout history. Impeccably written. The tone is quite scholarly. Well done.

Started in the wake of George Zimmerman's 2013 acquittal in the death of Trayvon Martin, the #BlackLivesMatter movement has become a powerful and uncompromising campaign demanding redress for the brutal and unjustified treatment of black bodies by law enforcement in the United States. The movement is only a few years old, but as Christopher J. Lebron argues in this book, the sentiment behind it is not; the plea and demand that "Black Lives Matter" comes out of a much older and richer tradition arguing for the equal dignity - and not just equal rights - of black people. The Making of Black Lives Matter presents a condensed and accessible intellectual history that traces the genesis of the ideas that have built into the #BlackLivesMatter movement. Drawing on the work of revolutionary black public intellectuals, including Frederick Douglass, Ida B. Wells, Langston Hughes, Zora Neal Hurston, Anna Julia Cooper, Audre Lorde, James Baldwin, and Martin Luther King Jr., Lebron clarifies what it means to assert that "Black Lives Matter" when faced with contemporary instances of anti-black law enforcement. He also illuminates the crucial difference between the problem signaled by the social media hashtag and how we think that we ought to address the problem. As Lebron states, police body cameras, or even the exhortation for civil rights mean nothing in the absence of equality and dignity. To upset dominant practices of abuse, oppression and disregard, we must reach instead for radical sensibility. Radical sensibility requires that we become cognizant of the history of black thought and activism in order to make sense of the emotions, demands, and argument of present-day activists and public thinkers. Only in this way can we truly embrace and pursue the idea of racial progress in America.

"Injecting historical and philosophical perspective into the country's contemporary racial quagmire, Lebron offers readers a glimpse of the intellectual roots of African American's continual fight for respect and equality. His call to join a historically momentous generational force demanding change also offers readers direction on how to become part of a solution." -Library Journal "If you want to understand the urgency of #BlackLivesMatter you need Christopher J. Lebron's excellent The Making of Black Lives Matter: A Brief History of an Idea, a nimble, passionate, and far-ranging intellectual history. Through testimony in art and in letters, Lebron presents radical political philosophy for our times." -Nell Irvin Painter, author of The History of White People "The Making of Black Lives Matter offers a powerful, timely, and necessary intellectual meditation on the roots of the most important social movement of the 21st century. Christopher Lebron's cri de coeur challenges activists, institutions, and Americans of all backgrounds to reimagine the contours and possibilities of racial justice from antebellum slavery to the streets of Ferguson, Missouri." -Peniel E. Joseph, author of Stokely: A Life About the Author Christopher J. Lebron is Assistant Professor of African American Studies and Philosophy at Yale University.
