How the Australians and British soldiers died under the Japanese.By Kevin M QuiggThis is a great book by the Australian author who endured 4 plus years of disease and death at the Japanese.This book shows the criminal activity of the Imperial Japanese Army. They starved and killed thousands of Allied Prisoners of War. This criminal activity should have resulted in the conviction and execution of all the guards at these camps.This book is a great piece of literature describing how one man remained human during long periods of hunger and disease. It also shows the depravity of the Japanese military during World War Two.I highly recommend this book. If one wants to read the Bridge over the River Kwai, the reader should start here. This is the real story of bravery.5 of 5 people found the following review helpful. POW's in Malaya and SingaporeBy George H.I was told of this book by a friend and, because I had known one of the men mentioned in the book (Padre Noel Duckworth) when I was a teenager, I bought and read it. I found it extremely well written, at times amusing, at times harrowing, always informative. I agree with the book's blurb that it is one of the best first-hand accounts of life as an Allied soldier and then POW in Malaya/Singapore during World War Two. It was, quite simply, a book I could not put down. It should be re-printed and re-issued. [ASIN:1843410206 Naked Island]]1 of 1 people found the following review helpful.
