Economic Globalization but a personal account of sustainable community activism in Detroit. Boggs argues that public education is geared only to serve as college-university filters and feeders and with college AND because university education out of the reach for many of the city's poor the drop out in record numbers. Boggs argues that political agents are dynamic entities like MLK Malcolm X had to adapt to a dynamic socio-economic-political environment. Sustainable community activism must get the community involve in a major way and to get them interested activism must look to address concrete needs in that communities and provide a definable service or product to be justifiable. Boggs looks a partnering with others to achieve this. Food Security and Conflict dispute are two such community needs Boggs sees as needed. Boggs is not a Game Theorist or a Military General but she sees the heart of the problem and she knows a leader must win the hearts of his people before he can effectively lead them. 0 of 0 people found the following review helpful. Five Stars By Rfab So much to love about and learn from Ms. Lee Boggs. 0 of 0 people found the following review helpful. Must Read As a Guide For Radical Change By Sheila Pinkel This book is a crucial read for anyone interested in radical change. It is life changing for me.

A world dominated by America and driven by cheap oil, easy credit, and conspicuous consumption is unraveling before our eyes. In this powerful, deeply humanistic book, Grace Lee Boggs, a legendary figure in the struggle for justice in America, shrewdly assesses the current crisis—political, economical, and environmental—and shows how to create the radical social change we need to confront new realities. A vibrant, inspirational force, Boggs has participated in all of the twentieth century's major social movements—for civil rights, women's rights, workers' rights, and more. She draws from seven decades of activist experience, and a rigorous commitment to critical thinking, to redefine "revolution" for our times. From her home in Detroit, she reveals how hope and creativity are overcoming despair and decay within the most devastated urban communities. Her book is a manifesto for creating alternative modes of work, politics, and human interaction that will collectively constitute the next American Revolution.

"A stirring coda to one of the greatest chapters in the history of US radicalism."
