**Donald J. McCarthy Jr. : The Raptors: All F-15 and F-16 Aerial Combat Victories** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Raptors: All F-15 and F-16 Aerial Combat Victories:

3 of 4 people found the following review helpful. This book is filled with errors and inaccuracies. Too ...By Haldimann DamienThis book is filled with errors and inaccuracies. Too many discrepancies between texts and appendixes. Disappointing and not worth the money spent...1 of 1 people found the following review helpful. Great Photos!By Experten5Book arrived as described. More of a photo book than a history, but it will be a great source for model makers.3 of 4 people found the following review helpful. Great photography, poor writing skills.By Kenneth ToveyGreat book with lots of photos and pictures of various aircraft in different services. But full of mistakes and poor writing . Simple things such as grammar of the book are very obvious and really suck the life out of the book. How do

you know that the engagements that he talks about for the different air forces are accurate?

This is the most detailed historical photographic account of all individual Israeli and American F-15 and F-16 aerial combat victories. Included with each photograph is information that will surprise you, such as the identity of the Israeli and American pilots and their squadrons, individual tail numbers of each aircraft, and the weapon(s) deployed in the destruction of each enemy fighter. Many of the successful air-to-ground missions are showcased, including: Operation OPERA (Israeli raid against the nuclear reactor under construction in Iraq); and the October 1985 Operation WOODEN LEG (F-15s from Tel Nof Air Base launched against the PLO headquarters in Hammam al-Shatt, Tunisia; the first time the F-15 was ever deployed as a strike fighter). Photographs of individual aircraft and detailed descriptions of each mission are included as well.

About the Author Don is a retired member of the Waterford, Connecticut Police Department, having served as a criminal investigator and detective commander for thirty-two years. A lifelong military enthusiast, he has authored several books regarding military aviation.
