**Andreas Kappeler : The Russian Empire: A Multi-Ethnic History** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Russian Empire: A Multi-Ethnic History:

0 of 2 people found the following review helpful. Five StarsBy Stephanie Ayalaperfect0 of 12 people found the following review helpful. Russian historyBy Bartok KinskiI'm often drawn to Russian history.The Russian Empire.

The "national question" and how to impose control over its diverse ethnic identities has long posed a problem for the Russian state. This major survey of Russia as a multi-ethnic empire spans the imperial years from the sixteenth century

to 1917, with major consideration of the Soviet phase. It asks how Russians incorporated new territories, how they were resisted, what the character of a multi-ethnic empire was and how, finally, these issues related to nationalism.

"an extremely timely book, for it is the first history of Russia which does the imperial theme full justice" Geoffrey Hosking, *The Slavonic* "the first attempt in any language to centre the whole of Russian history from the 16th century to the present day on the relations between the empire's ethnic groups...timely as well as innovative" David Saunders, *English Historical* From the Back Cover `This is an extremely timely book, it is the first history of Russia which does the imperial theme full justice.' Geoffrey Hosking, *The Slavonic* `This is the first attempt in any language to centre the whole of Russian history from the 16th century to the present day on the relations between the empire's ethnic groups...timely as well as innovative' David Saunders, *English Historical* Greeted with critical acclaim in the original German, this major survey of Russia as a multi ethnic empire spans the imperial years from the sixteenth century to 1917, with a serious consideration of the Soviet phase. It asks how Russians incorporated new territories, how they were resisted, what the character of a multi ethnic empire was and how, finally, these issues related to nationalism. With modern Russia at the forefront of contemporary world affairs, our need to understand its colonial and national past and its implications for the present has never been greater. Breaking completely new ground, *The Russian Empire* is essential reading. Andreas Kappeler is Professor of East European History, University of Vienna. The translator of this edition is Alfred Clayton.
