**William S. Turley : The Second Indochina War: A Concise Political and Military History** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Second Indochina War: A Concise Political and Military History:

Now in a thoroughly revised edition, this influential book offers a concise history of the "Vietnam War" as seen by all

sides, not just from the American perspective. Retaining its invaluable account of the strategies, perspectives, and internal politics of the Vietnamese Communists based on research in primary documents and interviews in Saigon and Hanoi, this completely updated and expanded edition incorporates the avalanche of documentation and secondary literature in both English and Vietnamese that has appeared over the past two decades. Distinguished scholar William S. Turley traces the conflict from its origins in the colonial period to its aftermath and shows how the local, national, regional, and global layers of conflict blended into a single event of great complexity. He takes a refreshingly objective look at contentious issues and concludes with a penetrating assessment of the claims, justifications, and "lessons" that scholars, statesmen, and strategists have advanced since the war's end. More information is available on the author's website.
