**Barry Davies : The Spycraft Manual: The Insider's Guide to Espionage Techniques** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Spycraft Manual: The Insider's Guide to Espionage Techniques:

1 of 1 people found the following review helpful. ChildishBy WTGA book that ought to be in a middle-school library. Not really what I was looking for. Caveat Emptor .0 of 0 people found the following review helpful. Four StarsBy CustomerUseful.0 of 0 people found the following review helpful. Five StarsBy Indian MedicineAs Stated

The Spycraft Manual is unique. There has never been a book that reveals the secret tradecraft techniques used by spies the world over. Until now. Intelligence in the field of counter-terrorism is a different and, in many aspects, arduous and dangerous task. The lives of many agents are in continuous danger. The rules of the game are cruel—as moral and ethical considerations are negated by the bullet. There is no honor between rivals on the streets of Beirut or Baghdad—only the most quickwitted survive. A modern spy must blend in, live among the enemy, speak the language, befriend, and exploit the enemy at very opportunity. They are required to be streetwise, rough, tough, and ruthless.

About the Author Barry Davies joined the British army in 1962 at the age of 17. Four years later, he volunteered for the SAS, passing selection while winning the Best Shot trophy. He remained with the SAS for 18 years, during which time he was involved in skirmishes that covered the globe. He saw action in the Middle East, including the Oman War. He fought in the jungles of both Southeast Asia and South America. Toward the end of his army career, he worked alone

in Northern Ireland. Mr. Davies now lives in Spain.
