An important book about an important aircraft!By Donald BurlesonGrowing-up watching "Twelve O'clock High" on TV in the 1960's (and because my Dad flew over 50 combat missions in B-17's), I've come to think that the B-17 is one of the most amazing aircraft ever built.This book documents the history of the US Air Corp in the desperate days following Pearl Harbor and the horrendous damage to the Air Corp at Clark Field in the Philippines.The story about corrupt coward turned general Douglas MacArthur ("Dugout Doug") dissing the Swoose is alone worth the price of this book . . .The Swoose is one of the most famous aircraft of WWII has been moved from the Smithsonian to a permanent hone at National Museum of the U.S. Air Force at Wright Patterson in Dayton Ohio.1 of 1 people found the following review helpful.
